COMPANY OVERVIEW

Rudhra Solar Greentech is a premier solar O&M company founded in 2016. We provide End-to-End Solar Expertise for Maximum Efficiency. We provide seamless solar plant installation, skilled technical manpower, and comprehensive O&M services.

With over 8 years of expertise, our outstanding team of engineers, technicians, and operations professionals bring to the market the most safe and reliable solar maintenance services — designed to meet any challenge, supported by experienced O&M specialists.

We continue to grow as one of India's most trusted solar energy management partners, offering the widest range of robotic cleaning and on-ground manpower services in the market.

Vission Statement

To be India's most trusted and innovative solar energy management company — driving the clean energy revolution through technology, reliability, and an uncompromising commitment to performance.

We envision a future where every solar asset operates at its maximum potential, every day — enabling our clients and the planet to thrive together sustainably.

Mission Statement

To deliver world-class solar O&M services that maximise energy yield and profitability for our clients — through cutting-edge robotics, skilled manpower, and data-driven operations excellence.

- Deploy advanced autonomous cleaning technology
- Build India's most skilled solar workforce
- Reduce water usage through dry robotic cleaning
- Deliver measurable ROI for every client

OUR SERVICES

Rudhra Solar Greentech provides end-to-end solutions, from expert solar plant installation and civil works to comprehensive Solar and Wind O&M. Our specialized offerings include drone thermography for precise asset insights, technical manpower supply ensuring seamless operations, and rigorous inspection and testing of electrical equipment.

SOLAR OPERATIONS AND MAINTENANCE

For top-notch Solar O&M in India, trust Rudra. We offer comprehensive services like PV module washing, MMS maintenance, and thermography to maximize plant performance and availability.

E-WASTE MANAGEMENT

Looking for a reliable e-waste management company in India? Energy offers sustainable recycling services for MNCs, SMEs, communities, and individuals. Ensure responsible e-waste disposal with us!

INSPECTION AND TESTING

Comprehensive inspection and testing services, including thermography, electrical testing, and performance analysis, to ensure safe, reliable, and efficient solar plant operation.

SUPPLY OF O&M SPARES

All types of spares related to wind & PV plants, switchyards, TL, consumables, tools and tackles, including insulated tools, measuring instruments, PPEs, and safety tools.

CIVIL WORK

We undertake complete civil works for solar power plants, including land development, foundations, roads, drainage, fencing, cable trenches, and infrastructure construction. Our services ensure a strong foundation for efficient and reliable solar project execution.

MAN POWER SUPPLY

- Highly skilled: BE (Electrical) professionals with 4–5 years of solar O&M experience and an Electrical Supervisor License.
- Skilled: Degree/Diploma holders with 2–3 years of O&M field experience.
- Semi-skilled: ITI/Diploma freshers, trainees, or candidates with less than 1 year of experience.
- Unskilled manpower: Office boys, helpers, module cleaning labour, and housekeeping staff.
